1

ALLIANCE RV CAMP READY INNOVATIONS

At Alliance RV, innovation and quality drive everything we do, ensuring our units are camp-ready from the moment they leave our facility.

- **Laser Guides:** Precisely install wall backers during lamination for superior strength.
- **Smoke Testing:** Detects plumbing leaks to enhance reliability.
- **Shake-Down Testing:** Simulates the rigors of travel with a 15-minute vibration test.
- **Rain Bay:** A 30-minute test with 10,000 gallons of recycled water ensures leak-free performance, slides open or closed.

Relentless testing, relentless improvement—because your adventure deserves the best.

2

A MEANINGFUL WARRANTY

A WARRANTY IS ONLY AS GOOD AS THE COMPANY THAT BACKS IT.

Every Alliance RV is generously backed with a 3-year limited structural and 1-year limited base warranty. Alliance stands out by living our principle of "Do The Right Thing." We understand that warranty and service needs are unique, so we maintain open communication with you and your Alliance dealer to find tailored solutions.

Our streamlined service and warranty programs help speed up approvals and parts delivery, getting you back on the road faster and enhancing your RV ownership experience. If you ever want to speak with one of our customer service representatives, please don't hesitate to contact us at (574) 226-0140.

3

FULL-TIME RVING WARRANTY

FULL-TIME RVING WON'T VOID YOUR ALLIANCE RV WARRANTY*

At Alliance we understand the lifestyle and offer warranty and service solutions that support your needs, whether you're on the road part-time or full-time.

*Additional equipment may be necessary in certain climates or conditions for full time use.

SOLID FOUNDATION

Next generation advanced frame technology with heavy duty Performance Running Gear. Redesigned from the ground up, the Benchmark Chassis features solid steel 10" I-beam main rails with a 2" torsion tube welded where the running gear attaches, drop frame storage area, flush upper deck design, reinforced goose neck area and a Rota-Flex pinbox.

4 SPACE SAVER UPPER DECK

Engineers were able to redesign the upper deck to be stronger, while flattening the deck to eliminate the toe breaker steps typically found in this space. Stronger design + flush upper deck = smarter chassis.

5 ROTA-FLEX PINBOX

The Rota-Flex pinbox has a pivoting head with built in rubber compound to reduce chucking and absorb road shock while towing.

6

RUN FULL HOLDING TANKS

We know its not always possible to empty the holding tanks before hitting the road. We've all seen tanks fall out of the bottom of an RV and we have made it a priority to minimize this potential in an Alliance RV.

Our fresh tanks are encased in a robust steel cage. Waste tanks are molded to rest on full length steel Z rails and secured with steel straps to prevent shifting in transit.

STEEL CAGE

STEEL STRAPS

7

DROP FRAME AND TANK SIZES

Our Benchmark drop frame design raises the bar on front storage, increasing the volume of the storage compartment by over 30%.

CLASS LEADING TANK SIZES:

98 Gal. Fresh

106 Gal. Gray

106 Gal. Black

RUNNING GEAR REDEFINED

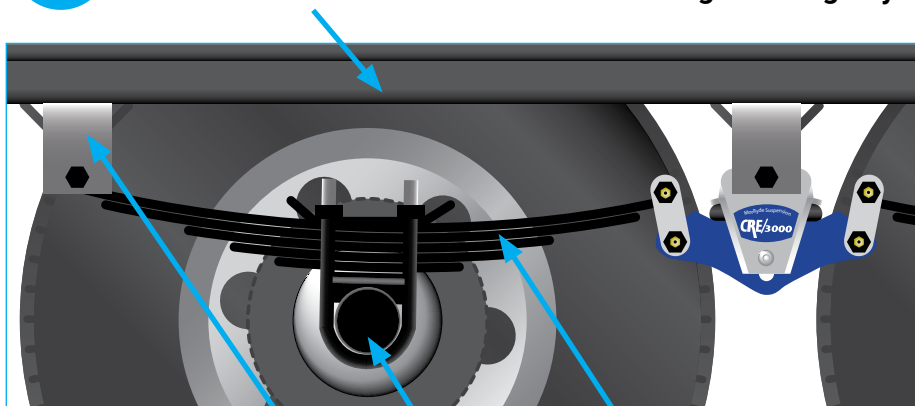

We listened to RVers to determine the good, bad, and ugly from the people who actually own and frequently use RVs. Unanimously, it was clear that tire blow-outs, insufficient springs, thin shackles, and spring hanger failures were a critical area that needed to be addressed.

Building on the latest advancement in chassis design, we have strategically selected our Performance Running Gear system to address the common failures too often seen at this pricepoint.

8

2" TORSION TUBE

Welded to the I-beam for unbeatable strength and rigidity

9

SPRING HANGERS

THEIR'S

OURS

15

ALL-IN-ONE UTILITY CENTER

The Alliance Valor Versatility Living RV features a state-of-the-art Manifold Manabloc system, designed with inspiration from modern homes. This system allows you to control all water flow into your RV from one convenient location, giving you unmatched ease and efficiency.

In the conveyance center, you'll find everything you need for seamless utility management, including water hookups, coaxial connections, and tank pulls. For added convenience, the center is equipped with a light for nighttime use, a quick-connect sprayer for easy cleanup, and a 110-volt outlet to power additional devices.

16

PEX PLUMBING Cross-linked polyethylene (PEX)

Real PEX water lines are used throughout for a reliable, temperature-resistant plumbing system. Unlike traditional braided lines, which have inferior connections and are more prone to leaks, PEX offers a stronger, more secure fit.

17

6' FOLDING TABLE STORAGE

A 6-foot folding table fits neatly into the pass through storage compartment, allowing for easy stowing and retrieval when extra space or seating is needed.

18

6,000 WATT GENERATOR

The Valor is powered by a 6,000-watt NPS generator with advanced inverter technology and a reliable Yamaha engine. With remote, pull, and push-start options, you're always ready for adventure—your way!

19

FRONT STORAGE

Industry leading 80 cubic feet of storage is found up front, above the generator and battery compartment, for gear, tools and more. Alliance takes advantage of every square inch so you have the space you need for that extended stay.

20

SLAM LATCH BAGGAGE DOORS

Slam latches and automotive bulb seals keep baggage compartments tight, dry, and secure. Large handles provide easy opening and convenient access to your gear.

Individually keyed units offer added security, eliminating universal keys.

21

PAINTED FRONT CAP

We paint our front cap to match the sidewall color.

The automotive paint is durable and long lasting, looks fantastic, and protects the value of your investment.

22

AUTOMOTIVE VINYL GRAPHICS

Valor features vibrant, durable, and long-lasting vinyl film graphics. With minimal shrinkage and the ability to withstand extreme temperatures, your exterior graphics will look great for years to come!

23

DUAL 30 POUND LP

Extend your RV stay with 60 pounds of LP in two 30-pound tanks, located on both sides for even weight distribution and equipped with an auto changeover valve for convenience.

24

6-POINT AUTO LEVEL

6-point hydraulic auto leveling is faster, stronger, and quieter, making leveling your coach quick and easy so you can get to relaxing. The control panel is conveniently mounted in a compartment on the off-door side by the front jacks.

25

OVERSIZED AWNINGS

Alliance maximizes your patio's usability with large awnings made of dark material that blocks more sun. The awning arms feature a friction hinge and gas strut for easy, one-handed adjustments, acting as a shock absorber if wind gusts occur. A manual override is included in case of no power.

26

AWNING PATIO LED LIGHTING

Enjoy your patio lights with or without the awning out.

Our patio awning LED lighting is mounted to the sidewall so you don't have to run your awning out all the way to reveal the lights.

27

OFF DOOR SIDE SECURITY LIGHT

Enjoy added security and peace of mind being able to see at night on the off door side of your unit. The off door side security light is on an independent switch.

28

PVC ROOF

We protect your investment with a seamless PVC roof that's more puncture-resistant than the TPO used by many others. PVC is ultra-bright white and more solar reflective, helping keep your unit cool. In the unlikely event of a tear, it can be easily repaired with a patch of PVC material and PVC cement from your local hardware store.

29

HEATED AND ENCLOSED UNDERBELLY WITH TANK PADS

Extend your RVing season into the cooler months with a heated and enclosed underbelly.

12 volt tank heat pads are standard on all fresh, gray and black tanks.

30

DOUBLE INSULATED FIBERGLASS ROOF

When it comes to insulation, we install the best of both schools of thought with traditional fiberglass batten insulation and a seamless layer of reflective material for maximum efficiency in hot and cold climates.

31

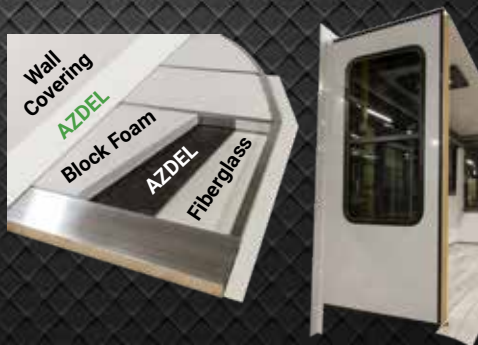

COMPOSITE WALLS, SLIDES & FLOORS

A reliable sidewall starts with a durable high-grade aluminum frame, professionally welded and reinforced at stress points. Block foam insulation fills the voids, sandwiched between an AZDEL composite substrate and fiberglass on the exterior, with interior wallboard inside. The entire wall assembly is laminated and cured to perfection for the ultimate in durability.

Alliance sidewalls, slide faces, slide floors and end walls are all laminated.

- 50% Lighter
- No Rot, Mold, Warping, or Delamination
- 2X Insulation Value
- Odorless, NO Formaldehyde
- Quieter RVs
- No Impact to the Rainforest
- Unaffected by Humidity and Temperature Changes
- Long Life
- Made in USA

32

3-WAY CONTROLS

No more waiting for all the slides to run out in sequence to get to the one you really want. Say you're at a rest stop and you just want to run out one slide so you can get to the bedroom, bathroom, or refrigerator. No problem. Simply run that slide out as far as you need.

33

ACCESS HATCH IN PASS THROUGH

Alliance Basement storage compartments are insulated, heated, illuminated, and finished with a durable Congoleum floor and automotive trunk carpet to protect your cargo.

Our basement compartments feature easy access to mechanicals with a full size access hatch that swings out and can be removed.

34 HOT / COLD SHOWERS

Every Valor now features a hot/cold water valve with three quick-connect spray ports, complete with a convenient sprayer. Located on the patio side, off-camp side, and rear of the coach, these ports make it easy to rinse off feet, pets, or grandkids before stepping inside. An additional hot/cold spray port is positioned on the off-door side within the utility center. The included hose is designed to resist tangles and kinks, storing neatly in its compartment for hassle-free use.

35 PATIO SIDE LP QUICK CONNECT

No need for small portable LP cylinders with 60 pounds of LP on board. The patio side LP hookup lets you conveniently use your camp grill or patio heater for dining and entertaining.

36

STEP ABOVE & SAFE-T-RAIL HANDLE

MORryde's StepAbove RV entry step system gives you bounce-free, wobble-free stability. With adjustable feet, rough terrain is no problem for your StepAbove. Easily store and lock the StepAbove into your door entrance.

Entering and exiting your RV is now easier and safer with MORryde's Safe-T-Rail. With a Magnetic lock securely holds rail in place during travel.

37

UNDER-FRAME PATIO LIGHTING

Patio-side under-frame LED lighting enhances your patio experience, illuminating the ground for both enjoyment and safety. Plus, it just looks cool!

38 TRIPLE A/C STANDARD

Triple 13,500 BTU, ultra quiet, independently controlled direct flow A/C units maximize cooling capacity.

40,500 BTU
OF COOLING POWER

50%
MORE
EFFECTIVE

39 ULTRA QUIET DUCTLESS DESIGN

Ducts reduce cooling efficiency, which is why our ductless A/Cs deliver 100% of the cold air directly into the RV. The third A/C unit is minimally ducted to cool the bathroom. Our system is very quiet, using the latest Mach NDQ series non-ducted air conditioners, operating at just 51-57 decibels, allowing for easy conversation and TV enjoyment. Each A/C unit draws only 10.4 amps on high.

2 A/C's easily run on 30 amp service

3 A/C's easily run on 50 amp service

A/C on LOW
(Avg. 51.0 db)

A/C on HIGH
(Avg. 56.5 db)

Coleman Mach Q (Quiet) Air Conditioner decibel test. Used "Decibel X" app on iPhone XR placed on bed directly below AC unit.

40 RV AIR FLOW SYSTEM

The Air Direct Air Distribution System enhances how cold air flows throughout the coach, delivering up to 15% more airflow at each vent—without reducing the air volume for the vents further down the line.

41

40,000 BTU FURNACE

40,000 BTUs of forced air heat flow through flex ducts connected to formed ducts in the floor. Our heating ducts are designed to be as short as possible, minimizing heat loss and maximizing comfort.

Dedicated heat vents in the basement and underbelly keep the tanks and your gear cozy warm during cooler seasons.

42

ELECTRIC FIREPLACE

For those spring and fall days when the temperature doesn't warrant using the furnace, the 5,000 BTU fireplace takes the chill out of the room without using LP. Fully adjustable, it allows you to enjoy the ambiance of the fireplace without heating up the space.

43

NO CARPET ZONE

You spoke. We listened. Vinyl flooring throughout (No Carpet).

44

ALUMINUM FRAMED AND INSULATED FLOOR

WITH SEAMLESS 5/8" TRUBOARD DECKING

Superior floor construction begins with a lightweight rigid aluminum frame that is insulated with fiberglass and a reflective foil barrier. Then a seamless sheet of 5/8" Truboard is secured on top and the bottom is wrapped in a durable woven poly stranded material.

45

FLUSH FLOOR KITCHEN SLIDE

No more raised slide room floor in the kitchen to stub your toes on.

No more awkward footing or leaning way over to prepare your food. Includes easy access manual override, in case of lost battery power.

Brand X's raised floor kitchen slide

46

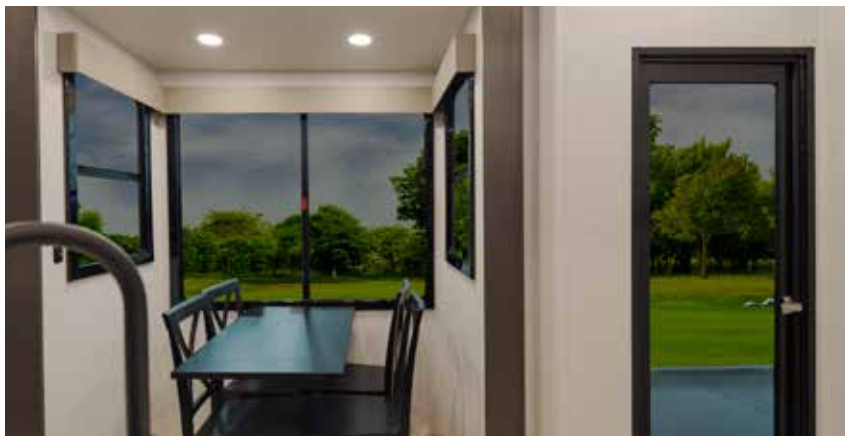

NO FLOOR VENTS

Floor vents are an eye-sore, foot-sore and a catch-all for dirt and trash. Our vents are mounted out of sight and off the floor where they won't catch your bare foot in the dark by surprise.

47 ATRIUM WINDOWS

Alliance offers larger windows and more of them than anyone else, giving you a High Definition view of your surroundings.

48 OPTIONAL THREE SEASON PATIO DOOR IN PLACE OF PULL DOWN SCREEN

Between the garage and ramp patio, our three-season patio door keeps the bugs out and the climate-controlled air in. Built-in screens let you enjoy the fresh outdoors, and the door folds neatly out of the way for easy loading of the garage.

49

CROSS VENTILATION

Get more fresh air inside! Bedroom and living areas feature strategically placed Atrium windows that open wide, providing excellent cross ventilation for a comfortable, airy atmosphere.

50

PULL DOWN ROLLER NIGHT SHADES

Whether you want to block out the bright light of day or have some privacy in the night hours, trust roller shades for quality and ease of operation.

51

MAXX FAN

The kitchen is equipped with MaxXFan roof vent standard. This high powered fan can exchange the room air quickly and will close down at the first sign of rain with the built in rain sensor.

52

KENSINGTON COLLECTION FURNITURE

Our Kensington furniture features high-quality, polyurethane-based fabric from the RICHLOOM Tough Collection. This non-bonded material is resistant to cracking and peeling, common in inferior bonded fabrics, and comes with an extended three-year RICHLOOM warranty.

53

POWER RECLINE

Enjoy 12 volt reclining comfort at the push of a button.

54

HIDDEN ARM REST DRINK HOLDERS

Kensington furniture does not sacrifice style for convenience. Drink holders are there when you need them and stylishly concealed when you don't.

55

110V AND USB CONVENIENCE
POWER CENTER

Power your laptop and charge your phone while relaxing in style on the Kensington sofa.

56

SOFT CLOSE CABINET DOORS

Hidden soft-close hinges not only look great but are highly functional. They prevent slamming, which can weaken door joints and loosen screws. The soft-close hinges work with magnetic latches to ensure doors stay tightly closed during transit, keeping your gear secure in the cabinet.

**57**

BALL BEARING DRAWER GUIDES

A residential luxury worth having. We use heavy duty ball bearing drawer glides for an added measure of quality and strength.

**58**

GLAZED BIRCH DRAWERS

WITH REINFORCED BOTTOMS

At Alliance, we prioritize quality and durability in every detail. That's why our drawers are crafted from Birch Glazed Hardwood, offering a luxurious look and feel while preventing splintering. Reinforced bottoms provide added strength to protect your drawers during travel, ensuring they stand up to the rigors of the road.

**90
POUNDS**

59

INNOVATIVE SPACE SAVING

Extra space by day and table by meal time! Haulers are limited on living space, and the flip up island table makes the most of the available space to enhance your experience.

Flip Up
Island Table

60

SHOE STORAGE

Under-step shoe storage provides the perfect spot to take off your shoes as you walk in the door. It keeps them out of the way, yet easily accessible when you're ready to head back outside.

61

RESIDENTIAL MICROWAVE

Our over-the-range microwave is a residential appliance with large capacity and high wattage.

- Auto-cook settings
- Multi power levels
- Express cook
- Energy saving Eco mode
- Two speed exhaust fan
- Removable rack
- Task light
- 12.4" glass turntable
- Safety features

62

BUILT-IN RANGE & OVEN

The Valor Toy Haulers come equipped with a premium 4-burner cooktop and a spacious, "turkey-tested" oven, perfect for all your culinary adventures.

The 12-volt ignition system makes it a boondocker's dream, offering reliable performance off-grid. The cooktop features a glass flip-top for added countertop space when not in use, enhancing functionality in the kitchen.

With stainless steel construction, this setup ensures lasting durability and a sleek look that pairs seamlessly with the rest of the kitchen appliances. Cook everything from quick snacks to a full Thanksgiving dinner with ease!

63

STAINLESS STEEL SINK

This customer driven feature is sure to please anyone using the kitchen. The residential sized stainless steel sink and pull out sprayer faucet makes it easy to clean even the biggest pots and pans. A convenient roll out slotted drying rack is included.

64

RV REFRIGERATOR

17 CU. FT. 12 VOLT

Part of the Masters of 12 volt package and engineered specifically for RVing, this massive refrigerator is the key to longer boondocking. It offers faster cooling and efficient operation on renewable 12 volt energy from the lithium iron battery and is charged by 640 watt solar panels. Boondock longer!

**A more efficient way to keep
your food and drinks cold.**

65

OVERSIZED PANTRY

The oversized pantry with motion lights and 100 volt power provides ample storage space for food and supplies, while also offering electrical outlets for appliances or lighting. This setup is ideal for easily powering small kitchen devices or ensuring the pantry remains well-lit and organized.

66

LIVING ROOM 50" HD TV

Living rooms feature residential size HD TVs for the best entertainment experience.

**67**

12 VOLT GARAGE & BEDROOM TVS

Enjoy off grid entertainment anywhere with 12 volt TVs in the garage and bedroom.

**68**

TV HOOK-UP

At Alliance we have made the TV hookup experience simple and easy to use.

ALLTV is designed to bring satellite, cable and antenna connections to all the TV locations throughout your RV.

69

JBL AUDIOTAINMENT SYSTEM

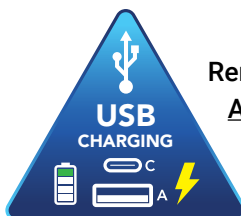

The AM/FM, USB, and Bluetooth audiotainment system brings modern entertainment right to your fingertips. JBL speakers deliver powerful sound in a compact space. For added control, download the JBL app to manage your system from a smartphone or tablet, make phone calls, stream media to the TV, play content from a flash drive, and more.

70

USB CHARGING PORTS

With all the electronic devices we use—cell phones, tablets, earbuds, GPS units, and more—having plenty of USB charging ports is a must. The phrase "2x2x2" in an Alliance RV refers to the thoughtful placement of USB ports: two in the end tables, two in the theater seats, and two in the bedroom nightstands, ensuring you can easily charge your devices wherever you are.

Remember your ABCs
Always Be Charging

71

SMART WIRE

Ever wonder where all the wires go? We're not afraid to show you what's behind the covers—actually, we're proud of it. We take extra care to keep the wiring and plumbing neat and organized, which helps prevent issues and saves time on troubleshooting later. With color-coded and numbered wiring, repairs are quicker and DIY projects become much easier.

Unlike most RVs where the wiring looks like a tangled mess, we ensure everything is clearly labeled and easy to follow.

72

BREAKER / FUSE BOX

CONVENIENTLY LOCATED AND CLEARLY MARKED

We position our breaker/fuse boxes where you can get to them easily, and we clearly mark every breaker and fuse. We also provide a smart wire code guide so you can easily identify and trace wiring back to the source.

73

CONTROL CENTER

Generally located near the entrance, our control center is easy to read and use. Every switch is marked clearly and organized logically.

74

INDIVIDUALLY SWITCHED SLIDE OUTS

No more waiting for all the slides to run out in sequence to get to the one you really want. Say you're at a rest stop and you just want to run out one slide so you can get to the bedroom, bathroom, or refrigerator. No problem. Simply run that slide out as far as you need.

75

DIMMABLE LED FLUSH CAN LIGHTING

RV LED lighting can be extremely bright and sometimes blinding, but Alliance offers a modern solution. A dimmer switch allows you to control the lighting in both the living area and bedroom, offering more comfort and flexibility. Additionally, our LED ceiling lights are flush mount can style, similar to the sleek, modern lighting found in today's homes.

SMART LED DIMMER

PERFECT LIGHTING:
DAY OR NIGHT, TASK OR MOOD
(REMEMBERS LAST SETTING)

76

LED ACCENT LIGHTING

Alliance includes LED accent lighting in the crown molding, kitchen sink, cabinets, and bathroom mirror, creating a soft glow day or night. Our lightweight pendant lights are designed to stay secure during abrupt stops, unlike heavier options that can swing and pull out of the ceiling.

12 VOLT PACKAGE

PACKAGE INCLUDES:

- 100 Amp Hour Lithium Iron Phosphate Battery
- Battery Monitor System
- 40 amp Charge Controller
- 2x 400 watt Solar Panels
- 17 cubic foot 12 volt Refrigerator

77

Equivalent of two traditional RV batteries and 1/5 the weight!

78

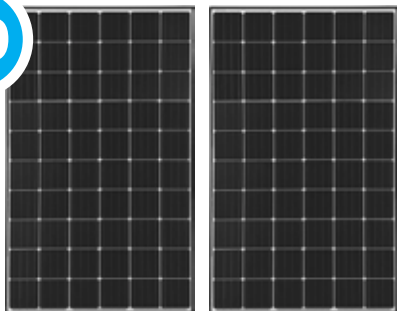

Know exactly what is really going on with real time monitoring of power usage and battery condition.

17 cubic feet.

79

800 watts of high efficiency, pure power generation.

Testing shows that this combination of components outperforms traditional solar packages.

MORE 12 VOLT SYSTEMS FOR A SUPERIOR BOONDOCKING EXPERIENCE!

80

WEATHER RESISTANT RAMP PATIO

Ramp doors are more than just for loading. Our weather-resistant ramp doors are designed to provide 60 square feet of elevated patio space, extending the garage area for extra outdoor use.

**81**

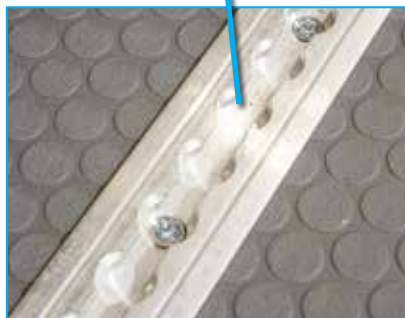

INSULATED GARAGE FLOOR

Insulating the garage floor helps maintain a comfortable temperature in both hot and cold conditions while reducing noise, making the space quieter and more enjoyable for everyone.

**82**

L-TRACK

D-rings often aren't in the right spots for securing items of different sizes and shapes. L-Track, however, provides endless possibilities for anchor points, allowing you to tie down almost anything securely.

83

ON-BOARD COMPRESSOR

The built-in 12 volt air compressor with hose connections on both sides of the garage makes it easy to top off tires and inflatables.

84

FUEL TANKS

The gas station-style fill hose and nozzle provide clean and safe fueling for your toys. The lockable fill hose compartment ensures security, while being vented for safety.

With dual 30-gallon fuel tanks, one is dedicated to the generator, and the other is for your toys.

85

ROOF ACCESS LADDER

Easily access your roof for maintenance with the built-in ladder, designed for safety and convenience. It folds up and locks neatly against the sidewall during travel.

86

KING BED STANDARD

Sleep like royalty on our standard king-size bed, with plenty of space to walk around on both sides for easy access. (Optional queen bed available.)

**87**

OVERHEAD BED WINDOW

Many RV bedrooms can feel dark and cramped, but we install a window above the headboard to bring in natural light and create a bright, open atmosphere. You can even open the window on cool summer nights for fresh air.

88

HAPPI JACK

Valor garages feature Happi Jack bunks and sofas that can be raised to make space for cargo or lowered for seating and sleeping, offering versatile functionality.

89

UNDER-BED STORAGE

The huge under-bed storage compartment, with gas struts for easy access, offers 18.75 cubic feet of finished space. It's perfect for storing folding dinette chairs, extra blankets, sleeping bags, or gear-filled totes, giving you convenient access without needing to go outside to the basement compartments.

90

PERSONAL READING LIGHTS

Above the headboard, ceiling-mounted LED reading lights provide focused illumination. Each light is individually controlled with a pushbutton switch, easily accessible for convenience.

91

DRESSER TOP HIDDEN STORAGE

The dresser features a hidden compartment perfect for storing jewelry, watches, wallets, or anything you want to keep out of sight but within reach. The dresser top has a half lid, while the other half remains stationary, allowing you to keep items on top and still access the hidden space.

92

HUGE CLOSETS

Let's face it, we all have plenty of stuff, and most RVs offer limited closet room. Valor haulers, however, feature some of the largest closets on the market, with ample hanging storage, shelves, and cubbies to keep everything organized. (Closets vary by model).

93

RUSTIC SLIDING BARN DOORS

In an RV, every inch of floor space matters. Sliding barn doors provide the privacy of a solid swinging door but take up half the space of a pocket door, as they don't require a second wall or swing open. They offer the best of both worlds while adding a stylish touch. Heavy-duty rolling hardware and a steel track ensure smooth operation, and tie-backs keep the door secure during transit.

94

SOLID SURFACE COUNTER TOPS

Solid surface countertops, now standard in your RV, offer the same quality as residential options. They're food-safe, easy to clean, and maintain their beauty over time. Made from the same material throughout, they can be buffed and polished to remove minor scratches from everyday use.

95

WASHER / DRYER PREP

IN FRONT CLOSET AND GARAGE

We make adding a washer and dryer easy with dedicated pre-engineered spaces, complete with 110 volt outlets, color-coded hot and cold water hookups, drain connections, and an outside vent location—all ready for a quick and simple upgrade.

96

LED BACKLIT MIRRORS

Backlit mirrors, often found in upscale hotels and luxurious homes, add a touch of elegance to your bathroom. They provide a soft nightlight or a pleasing indirect glow, setting your space apart with a modern, stylish accent.

**97**

48" RESIDENTIAL SHOWERS

Say goodbye to cramped neo-angle showers! Alliance residential showers offer the perfect blend of space and features for a luxurious experience.

The reinforced fiberglass base is solid and sturdy, preventing flexing that could compromise the seal around the drain. The seamless, single-piece shower surround is mold and stain-resistant, making it easy to clean with just a soft cloth and mild detergent.

For added comfort, the shower includes a 6-inch sunken tub, perfect for rinsing off gear, washing pets, or enjoying a relaxing soak. Taller individuals will also appreciate the high-mounted shower head, eliminating the need to bend down for a refreshing rinse.

98

SOFT CLOSE PORCELAIN TOILET

The hygienic, hands-free porcelain foot flush RV toilet offers superior performance, possibly even better than a residential bowl. With a powerful flush, modern rimless design, full-size ceramic bowl, and home-like seat height, it provides unmatched comfort and efficiency. The soft-close seat and lid are easy to clean and prevent any accidental slamming in the middle of the night.

**99**

TRIPLE GLASS SLIDING SHOWER DOOR

This space-saving design lets you open the shower wide for easy and safe entry, without bulky swinging doors that can get in the way or drip on the floor. A simple travel lock keeps the doors secure while you're on the road. The anodized aluminum frame is rust- and corrosion-resistant, ensuring it looks great for years.

Boondocking isn't just about getting off the grid—it's about staying off the grid, comfortably and confidently. That's why Valor Toy Haulers are designed by RVers who understand the demands of true off-grid adventures.

Every Valor comes equipped with a Solar Charge Controller (size varies on All-Access models), ensuring efficient power management to keep you running longer. Select models also feature a 3,000-watt inverter, delivering seamless power to all outlets throughout the RV. Whether you're brewing your morning coffee, charging devices, or running essential appliances, you can count on uninterrupted power wherever the road takes you.

To ensure reliable performance, Valor's innovative Junction Box is specifically engineered to handle the load, giving you the freedom to embrace off-grid living without compromise.

Built by RVers, for RVers, Valor empowers you to go farther, stay longer, and explore deeper. With Valor, your adventures have no limits.

PREPPED FOR THE MOST COMMON UPGRADES

After surveying thousands of RV owners about their experiences, we found that a common issue was the difficulty of upgrading later. Not everyone wants to purchase every option upfront, and needs can change over time. Without proper preparation, upgrades can be a hassle. We identified the four most common post-sale upgrades and made them as easy as possible to add later.
